2026 Edition

Always Ahead, Join Us

More than an object. *Tableware for the modern table.*

XWARES designs and manufactures professional melamine tableware for restaurants, hotels and hospitality groups that treat presentation as part of the recipe. Every plate, bowl and platter is finished in our signature matte black — a surface that frames food the way a gallery frames art.

Built for the pace of a working kitchen: chip-resistant, stack-efficient, dishwasher-safe and consistent piece to piece, service after service.

“A platform devoted to delivering a product beyond the object itself.”

COLLECTION 01

M SERIES

The core of the XWARES range. Twelve coordinated pieces — coupe plates, ramen bowls, platters and sauceware — in deep matte black with a softly ribbed profile. Designed to move from Asian service to modern bistro plating without changing the table's language.
